

ICE WaRM Seminar Series

Transformational Environmental Policy Reforms: *Innovation Potential in Climate and Water Policy*

Prof Mike Young

Mike has spent the last year as the **Gough Whitlam and Malcolm Fraser Chair in Australian Studies, Harvard University**, where he taught a course on the Design of Transformational Environmental Policies.

At the University of Adelaide Mike is Research Chair in Environmental and Water Policy.

Mike also holds the position of Honorary Professor, University College London. In 2009, Mike was named South Australian of the Year in the Environment Category.

OVERVIEW:

Successful transformational innovations, as distinct from incremental policy reforms, are rare but when they work, businesses, the community, and the environment can all gain.

- What do successful transformational environmental policy reforms look like?
- What would a transformational water policy reform look like?
- Is there a way to package them so that policymakers can be expected to consider them seriously?

Mike will explore these questions and discuss the potential for, and potential impacts of, transformational climate policy reforms.

When: Wed 26 November, 3.45 for 4.00pm start followed by drinks and nibbles

Where: Adelaide, Ibis Hotel
The Hub, 1st Floor, 122 Grenfell Street

How Much: Free

Registration is essential.
RSVP by Wednesday 19 November:
E: reception@icewarm.com.au
Ph: 8236 5200
